What is a 702 Error in QuickBooks?

Call 1-844-403-7449, QuickBooks error 702 typically occurs when the software faces issues connecting to the payroll service or when there is a communication failure with Intuit's servers. This error often pops up during payroll processing, updates, or while accessing QuickBooks Online payroll features. It can prevent you from completing payroll tasks, causing delays in paying employees and managing taxes.

The error message associated with error 702 may read like this:

"QuickBooks Error 702: Payroll update failed due to communication issues."

This error indicates that QuickBooks cannot properly sync or communicate with Intuit's payroll servers.

Common Causes of QuickBooks 702 Error

Several factors can trigger error 702, including:

- Internet connectivity problems interrupting communication with Intuit servers
- Firewall or antivirus settings blocking QuickBooks payroll access
- Corrupted QuickBooks payroll files or outdated software
- Issues with the QuickBooks company file or network setup
- Temporary glitches in Intuit's payroll server
